SUMMARY

Frontend-focused Computer Science graduate with hands-on experience designing and building user-facing interfaces (Figma, Vue.js, React) for enterprise and civic-tech products. Skilled at translating complex technical requirements into clear, intuitive visual experiences, gathering user feedback to refine workflows, and collaborating cross-functionally with engineers and stakeholders.

EDUCATION

Missouri University of Science and Technology

Rolla, MO

Bachelor of Science in Computer Science

Honors: SWE Pink Award, Dean's List, Provost Scholar

TECHNICAL & DESIGN SKILLS

Design & Prototyping: Figma, UI/UX design, wireframing, interactive prototyping, responsive interface design, visual/interaction design

Frontend: JavaScript, TypeScript, HTML, CSS, Vue.js, Angular, React, Tailwind

Other Languages & Tools: Python, C++, SQL, Git, Docker, MySQL, Godot, WordPress

Collaboration: Cross-functional teamwork with engineers and non-technical stakeholders, iterative user feedback integration

Spoken Languages: Spanish (Fluent), French (Intermediate)

AWARDS AND HONORS

Best Retro Project

Missouri S&T Pickhacks

- Designed an award-winning side-scrolling platformer in Godot — owning the full visual/interaction design, gameplay mechanics, collision logic, and sprite animations.

PROJECTS

Boeing Air-to-Ground Search — Interaction & Interface Design

React, Tailwind, JavaScript

- Designed the visual interface and interaction flow for a tool that let non-technical stakeholders compare search-algorithm behavior and evaluate tradeoffs in real time, translating complex computational output into an intuitive, game-inspired UI.
- Built reusable, optimized React components to support smooth real-time data rendering, iterating on layout and visual hierarchy for clarity.

Office Resource Booking System — Frontend & UX

HTML, CSS, JavaScript, Vue.js

- Developed the frontend for a booking platform, implementing availability validation logic and state management to reduce scheduling errors for pilot users.
- Gathered user feedback iteratively and refined workflows, improving accessibility and reducing friction across the booking experience.

EXPERIENCE

Health Communications Assistant

Aug. 2023 – May 2025

Student Well-Being — Rolla, MO

- Analyzed engagement data and designed targeted multimedia content — including infographics and graphics — reaching 100+ students, translating data insights into clear visual communication.
- Streamlined content organization workflows and redesigned sections of the Student Well-Being website, improving data accuracy and clarity for diverse audiences.

LEADERSHIP

Vice President & PR Chair

May 2023 – May 2025

Society of Hispanic Professional Engineers (SHPE) — Rolla, MO

- Coordinated cross-functional logistics and budgeting for a national convention trip for 26 members, securing sponsorships from 5+ new partners to reduce individual travel costs.
- Maintained stakeholder communications with sponsors and chapter members, building relationships that supported chapter operations and long-term initiatives.

PR Chair & Webmaster

May 2024 – May 2025

Association for Computing Machinery – Women's Special Interest Group (ACM-W) — Rolla, MO

- Redesigned the ACM-W website end-to-end, migrating from WordPress to a custom build (HTML, JavaScript, Angular) to improve user experience, performance, and engagement.
- Maintained social media presence and produced event materials to grow chapter visibility and communicate updates to diverse stakeholder groups.

Vice President Internal & PR Chair

Jan. 2023 – May 2024

Society of Women Engineers (SWE) — Rolla, MO

- Raised \$7,950 in sponsorships to fund attendance for 16 members at the 2024 SWE National Conference, managing budget planning and vendor negotiations end to end.
